#### Message from the Principal:

The information contained in this report allows the Wyandotte School District to gauge their progress toward improving students achievement and can be used to meet reporting requirements in the "No Child Left Behind Act." Public Law 107-110.

Please take a moment to review the Wyandotte Elementary School Report Card for the 2014-2015 school year.

While our third graders did not meet the performance benchmark for the state, over 80% did meet the RSA criteria for promotion to 4<sup>th</sup> grade.

Fourth graders also did not meet the performance benchmark for the state but are making growth towards mastery of the standards set forth by the state.

Fifth graders scores are as follows:

	School	State
Math	89%	77%
Reading	82%	77%
Social Studies	78%	82%
Science	76%	62%
Writing	47%	54%

All fifth grade scores exceeded the state averages with the exception of Social Studies and Writing.

Wyandotte Schools continues to analyze data and align curriculum to better meet the needs of our students. Our focus remains on student learning and we will continue to monitor our progress toward meeting the performance measures set forth by federal law and the state of Oklahoma.

Sincerely,

Carla Lyons, Principal  
Wyandotte Elementary
